Introduction

The Hong Kong Examinations and Assessment Authority is dedicated to providing reliable and equitable examination and assessment services. For candidates with special needs (such as candidates with disabilities), special examination arrangements can be made for them. The provision of such services allows these candidates to be equitably assessed under suitable conditions without having an unfair advantage over other candidates.

Candidates’ disabilities can roughly be categorised into physical, visual, aural, oral, specific learning disabilities and others (e.g. autism). Depending on the nature and severity of their disabilities, candidates are given special arrangements in an examination in the HKCEE and HKALE, including exemption from part of an examination.

Applications for special examination arrangements are processed by the Committee on Special Needs Candidates and the Task Group on Special Examination Arrangements for Candidates with Specific Learning Disabilities in accordance with the guidelines laid down by the Public Examinations Board.
