Number of candidates and examination subjects

Participation

This year, 561 schools participated in the HKCEE, presenting a total of 89 992 school candidates. The number of private candidates was 37 170. The total candidate entries of 127 162 represented an increase of 7% from last year, and 122 387 candidates eventually sat the examination. School and private candidates, on average, entered for 7 and 2 subjects respectively.

Examination Subjects

Altogether 39 subjects were examined this year. The subjects examined are shown on the Examination Timetable on page 13. Thirty subjects offered both Chinese and English versions. The percentage of subject entries taken in Chinese was 55%.

Registration of entries

Registration

Registration commenced in September 2009. Entry forms were issued to schools in early September. 443 schools submitted the examination entries of their students electronically, using the Web-based School Administration System (WebSAMS). Private candidates registered for the examination through the online system, by post or at the HKEAA office in San Po Kong. Entry forms for private candidates were also distributed at the HKEAA office in Wan Chai and through the District Offices of the Home Affairs Department.

Handbook for Candidates

Each candidate was given a copy of the Handbook for Candidates in early December 2009. The Handbook contains the examination regulations and special instructions including warnings against offences which could lead to disqualification or mark penalties.

Examination centres and invigilation staff

Examination Centres

Examination centres were set up in 408 schools, utilising 399 halls, 4 gymnasium and 4 254 classrooms. Each school hall was used for 8 to 11 days on average. 254 schools were closed for one to three days during the Chinese Language, English Language and Mathematics examinations in order to provide sufficient halls and classrooms to accommodate the large number of candidates for these three subjects. Eight examination centres were also set up in Cheung Chau and Tung Chung for candidates from these two areas.

A total of 285 halls and 2 066 classrooms were used as examination centres for the English Language listening test while 265 halls and 1 715 classrooms were used for the Chinese Language (Cantonese) listening test. The listening tests were broadcast by RTHK Radio 2 in the majority of these centres. A total of 27 and 25 examination centres with unsatisfactory radio reception used the infra-red (IR) transmission system to deliver the English Language and Chinese Language (Cantonese) listening tests respectively, providing an additional 5 260 places. Candidates sitting the listening tests at these IR centres listened to the broadcast using the headsets and receivers provided by the HKEAA. The quality of broadcast was comparable to that of FM radio.

The Chinese Language (Putonghua) and Putonghua listening tests were, on the other hand, conducted via the PA systems in 6 and 33 school halls respectively.

The English Language oral test was conducted in classroom centres of 38 schools (8 on Hong Kong Island; 13 in Kowloon; 17 in the New Territories). The Chinese Language (Cantonese and Putonghua) oral tests were conducted in 37 schools (9 on Hong Kong Island; 10 in Kowloon; 18 in the New Territories). The Putonghua oral test was conducted in 4 schools.
Centre Supervisors and Invigilators

Centre supervisors were nominated by the participating schools. Each centre supervisor was given a Centre Supervisor’s Handbook, which contains details of the examination regulations, special instructions and specimens of examination documents. Separate handbooks were also issued for English Language, Chinese Language, Putonghua, Visual Arts and Word Processing & Business Communication (English) examinations.

Centre Supervisors’ Conferences were held on 17 March, 19 March, 24 March, 13 April, 17 April, 19 April and 20 April 2010 to brief centre supervisors and their deputies on the procedures for the conduct of examination.

The number of invigilator-sessions for the written examinations and listening tests was 25,681. Participating schools provided for 96.9% of the total invigilation requirement. The remaining 3.1% was filled by external invigilators hired by the HKEAA. Teachers serving as invigilators at examination centres outside their own schools were given a travelling allowance.

To enhance the provision of effective and real-time administrative support to examination centres, the ‘Public Examinations Communication & Support System (PECSS)’ had been piloted in different examinations since 2007 prior to its full implementation. In 2010, 303 examination centres participated in the pilot test of the system, of which 200 were used for the HKCE examination. In general, the feedback from the examination centres and examination personnel on the system was positive.

Distribution of Question Papers and Collection of Scripts

Question papers were delivered by courier in the morning of each examination day to 405 (or 99.26%) examination centres which had opted for this service. Depot was also operated in San Po Kong to distribute question papers to centre supervisors who had opted for collection by themselves.

Eight collection centres were set up in Heng Fa Chuen, Yau Ma Tei, San Po Kong, Tsuen Wan, Shatin, Tai Po, Tuen Mun and Yuen Long for the return of scripts and other examination documents from centres after the examination.

Special arrangements were made for the return of scripts from the centre in Cheung Chau.

Services for Candidates with Special Needs

Same as last year, special examination arrangements were made for candidates with special needs so as to enable them to be equitably assessed under suitable conditions. This year, special examination arrangements such as extra examination time allowance, arrangement of supervised breaks, provision of braille/enlarged question papers and special answer books were made for 941 HKCEE candidates with various special needs including candidates with physical, visual, aural, oral or specific learning disabilities.

Fifty special centres (10 for oral and 40 for written examinations) were set up to serve these candidates. Some candidates were exempted from part of an examination such as listening or oral test. An annex was attached to the certificates of these candidates with information on the exemption given. The reason for the exemption was not listed on the certificate.

A total of 14 candidates who were hospitalised during the examination period were given permission, with the consent of their doctors, to sit the examination in hospital under the supervision of external invigilators hired by the HKEAA.

Special arrangements were made for 53 candidates who, due to religious reasons, could not take examinations on Saturday mornings. These candidates sat the listening tests of language subjects (English, Chinese and Putonghua) after sunset on the examination days at a special centre under the supervision of the HKEAA.

Arrangements were made for 103 candidates serving sentences to take the HKCE examination inside the correctional centres, under the supervision of invigilators provided by the Correctional Services Department and the HKEAA.
Marking and Grading

The barcode system has been introduced since 2006 to enhance reliability and efficiency in the processing of examination scripts, and to pave the way for phase implementation of on-screen marking. In 2010, on-screen marking was used in Chinese and English Languages, History, Religious Studies, Biology, Mathematics, Additional Mathematics and Computer & Information Technology.

There were 1,389,000 scripts from the written examinations this year. 3,200 markers, mainly secondary school teachers, were recruited. The same marking scheme and grading standard were used for the English and Chinese versions of subjects with bilingual versions. Marked scripts, except those marked on-screen, were checked by a team of 110 checkers for the detection of unmarked pages, addition errors and score-entering errors. All discrepancies found were rectified before the grading of results. (Scripts marked on-screen needed not be checked by this manual process as the system has built-in function to ensure accuracy of scores.)

This year, over 1,435 oral examiners were appointed to conduct the HKCE speaking examinations.

Examination Irregularities

All cases of irregularities reported by centres, schools or candidates were processed by the Standing Committee chaired by the Deputy Secretary General of the HKEAA in accordance with the Public Examinations Board’s guidelines for handling irregularities. The cases were then presented to the Public Examinations Board for final decisions.

Statistics on candidates who were penalised for offences committed during the examination are given in Table 1 – Statistics Overview on page 17.

Examination results

Release of Results

The examination results were released on Wednesday, 4 August 2010. Results notices were issued to school candidates through their schools. Private candidates’ results notices were sent by post. Schools using the WebSAMS were also given softcopies of their students’ results. Participating schools were given analyses of results of their own students as well as the statistics of all day school candidates and the entire candicature.

Private and evening school candidates were able to view their results on the Internet from 8:00 am on 4 August for a period of three weeks. In addition, those who had registered for the SMS service would receive their results through their mobile phones by 9:30 am on the day.

Starting from 2007, standards-referenced reporting (SRR) was used to report the results of Chinese and English Languages. Candidates’ levels of performance were reported using levels with reference to a set of defined standards. A set of written descriptors was developed for each level to describe the typical performance of candidates at that level.

An S6 Admission Slip was attached to the CE results notice of each candidate for the purpose of S6 admission. In order to tie in with the Secondary Six Admission Procedures operated by the Education Bureau (EDB), private and evening school candidates who had sat 6 or more subjects in the HKCEE and had not received their results notices by 10:00 am on the day of release of results could come to the HKEAA offices (Southern Centre or San Po Kong) for re-issue of their results notices immediately. This year, 462 candidates made use of this free service.

Assessed Subject Results of Candidates

School candidates who are unable to take the examination of a subject due to illness or other special circumstances may apply through their schools for assessment of results based on their school internal results. A total of 33 applications were approved this year. The assessed results of the subjects concerned, either grade C or grade E (limited to the maximum of level 4 for Chinese and English Languages), were listed on a second page to the candidate’s certificate. Candidates with assessed results below grade E (or level 2) were not awarded any assessed grade.
Rechecking and Remark ing

Candidates with supporting reasons may apply for rechecking or remarking of their examination results within one week after the release of results. School candidates apply through their schools while private candidates submit their applications directly to the HKEAA. A candidate may apply for rechecking or remarking (which includes rechecking of technical errors and remarking of answer scripts) for up to four subjects. Requests for rechecking or remarking for more than four subjects may be considered if there are extenuating circumstances supported by documentary evidence and the requests are submitted within the application period for rechecking and remarking. A total of 198 and 9,226 applications were received for rechecking and remarking respectively this year. The results for rechecking and remarking were released on 25 and 31 August 2010 respectively. School candidates collected their notification letters of rechecking / remarking results from their schools while private candidates received the letters by post. Private and evening school candidates were also able to view their rechecking / remarking results on the Internet from 10:00 am on 31 August for a period of three weeks. The Education Bureau and tertiary institutions concerned were informed of the upgraded results of candidates at the same time.

Appeal Review Committee

Candidates who disagreed with the decisions of the Public Examinations Board on examination irregularities, had doubt about the process of rechecking / remarking or the marking of examination scripts after gaining access to scripts might submit an appeal review application to the independent Appeal Review Committee. In 2010, a total of 8 and 52 applications were received for review of the processing of examination irregularities, and the process of rechecking and remarking or the marking of scripts respectively.

Certificates

The 2010 HKCEE certificates were issued to candidates in October. To mark the achievement of the HKCEE over the past 33 years, each candidate receiving a certificate was presented with a certificate holder. School candidates collected their certificates and certificate holders via their schools and private candidates received theirs by registered mail.

Except for the subjects of Chinese Language, English Language and French, the performance of candidates in each subject was recorded in terms of six grades (A to F). Achievements below grade F would be designated as unclassified. For the subjects of Chinese Language and English Language, the performance of candidates was recorded in terms of five levels (Level 1 to 5). Achievements below Level 1 was designated as unclassified. Level 5 candidates with the best performance would have their results annotated with the symbol ". Subjects with unclassified results would not be recorded on the certificate.

Question papers from the UK University of Cambridge International Examinations (CIE) were used for the subject of French and the grading was done by CIE. Results were indicated by A*(a*), A(a), B(b), C(c), D(d), E(e), F(f), G(g) and UNGD (ungraded). Results below grade F were not recorded on the certificates.

For the following subjects, components results in addition to the overall subject results were also provided:

- Chinese Language
- Computer and Information Technology
- Design and Technology
- Design and Technology (Alternative Syllabus)
- Electronics and Electricity
- English Language
- Graphical Communication
- Home Economics (Dress and Design)
- Home Economics (Food, Home and Family)
- Physical Education
- Putonghua
- Science and Technology
- Technological Studies

The language medium in which a subject was taken was not recorded on the certificates.
