(c) School-based Assessment (for school candidates only)

School-based Assessment (SBA) is administered in schools and marked by the candidates' own teachers. The SBA marks will form part of the candidates' public assessment results. All school candidates have to complete the SBA of the subject(s) concerned.

The following subjects have a School-based Assessment (SBA) component in the 2024 HKDSE:

Core subjects	Chinese Language and English Language
Elective subjects	Biology, Chemistry, Chinese Literature, Design & Applied Technology, Health Management and Social Care, Information and Communication Technology, Literature in English, Physics, Technology and Living and Visual Arts

Essential Points to Note in Completing the SBA

- ◆ Candidates should complete their SBA according to the work schedule set by their schools. Late submission of work may be subject to a **penalty** in accordance with the school's assessment policy.
- ◆ The SBA marks awarded represent candidates' own achievement. Work submitted for assessment must be candidates' original work.
- ◆ Candidates are required to sign a declaration form to declare that all SBA tasks/assignments completed are their own work and to agree to adhere to a code of honour in completing the SBA for all subjects. The SBA work may be subject to authentication check by the HKEAA using appropriate means, including plagiarism detection tools.
- ◆ Candidates will be subject to **severe penalties** for proven plagiarism, either by the HKEAA or the school. Zero marks will be given to the task in which serious plagiarism is proven. In addition, a penalty of **downgrade by one level** will be imposed in the subject concerned. For extreme cases, e.g. repeated offence of serious plagiarism, candidates may be **subject to disqualification from the subject(s) concerned or the whole examination**.
- ◆ The HKEAA will moderate SBA marks submitted by different schools to iron out possible differences among schools in marking standards.
- ◆ Candidates should keep a proper record of their SBA-related work till the end of the examination cycle and present it for inspection at the request of the school or the HKEAA.
- ◆ Candidates are encouraged to adopt the following good practices in completing their assessment tasks, which will help them achieve the best:
 - **Timeliness**: be aware of the due dates and complete the tasks in accordance with the schedule stipulated by their teachers.
 - **Start early**: be aware of the requirements and start working on the tasks early.
 - **Good planning**: break an extended task into smaller sub-parts and complete them in stages.
 - **Good record keeping**: keep a complete record of their work, including drafts and backup copies of computer files.
 - **Originality**: ensure the work they submit is their own, record the sources of information used and acknowledge them properly in their work.

Queries about SBA results

- ◆ Candidates should discuss with their subject teachers if they have any concerns regarding their SBA results. For unresolved issues, candidates may consider to consult the management of the school for further handling according to stipulated procedures.
- ◆ Any queries regarding SBA results should be resolved before the SBA marks are submitted by the school to the HKEAA.
- ◆ After the release of public assessment results, candidates may submit an application to the HKEAA for rechecking of the results of the SBA component. However, they cannot appeal for a re-assessment of their performance in SBA.

2. Category B Applied Learning Subjects

- ◆ There are 52 Applied Learning subjects including three ApL Chinese subjects (for non-Chinese speaking students). Candidates taking Applied Learning subjects are not required to sit for public examinations. They are required to duly complete the assessment tasks administered by the respective Course Providers and in accordance with the stipulated regulations and assessment requirements. The HKEAA is responsible for the moderation of the final assessment results.
- ◆ Students taking Applied Learning subjects must register for these subjects in the HKDSE through their schools in order that their assessment results can be released accordingly.
- ◆ Any queries regarding the results of individual assessment tasks completed during the course and the fulfillment of the attendance requirement should be resolved with the Course Providers before the marks are submitted to the HKEAA.
- ◆ After the release of examination results, candidates may submit an application to the HKEAA for rechecking of marks only. They cannot apply for a re-assessment of their performance in Applied Learning subjects.
