

INTRODUCTION

To enhance understanding of the standards of the HKDSE Examination, authentic samples of candidates' scripts in the 2024 examination are selected to form this set of exemplars which serve to illustrate the typical performance standards at different levels.

There is one paper in each Module of the Extended Part. This set of exemplars is selected from candidates' scripts of Mathematics Extended Part Module 1.

It is advisable to read this set of exemplars together with the question paper and the marking scheme in order to understand the requirements of the questions and the marking criteria. The question paper and the marking scheme are published in the *2024 HKDSE Question Papers (with marking schemes and comments on candidates' performance)*.
