PUBLIC EXAMINATION

The overall rationale of the public examination in Visual Arts is to assess candidates' performance in the visual arts. Both written presentation on critical appreciation of works of art from personal knowledge and production of a work of art will be used to assess candidates' performance in a broad range of skills and abilities in the two learning strands: *Visual arts appreciation and criticism in context* and *Visual arts making*.

Candidates must attempt ONE of the following examination papers. Each paper provides a choice of five questions. Each question provides reproduction artwork and may include relevant reference information for appreciation. Candidates are allowed to use reference materials during the examination.

Paper 1: Visual Presentation of a Theme

Candidates are required to work in two dimensions in any media, style or technique, choosing one question from the five given, and to work on the following two parts:

Part A: Art Appreciation and Criticism (45 minutes)

Write a critical appreciation of the reproductions of artwork provided.

Part B: Visual Arts Making (3 hours and 15 minutes)

Create a piece of artwork to present a theme. Candidates may submit a creative brief which may include notes, sketches or layouts produced during the examination to support their artwork, if necessary. The practical work and the creative brief will be assessed as a whole and no separate marks will be awarded to the creative brief.

The theme(s) are deliberately broad, giving candidates as much freedom as possible for their interpretation. This examination paper will assess candidates' understanding and appreciation of artwork and artistic visual presentation of a theme.

Paper 2: Design

Candidates are required to design in any media, style or technique choosing one question from the five given, and to work on the following two parts:

Part A: Design Appreciation and Criticism (45 minutes)

Write a critical appreciation of the reproductions of design provided.

Part B: Design (3 hours and 15 minutes)

Solve design problem(s) and present a design work. Candidates may submit a design brief which may include notes, sketches or layouts produced during the examination to support their design work, if necessary. The practical work and the design brief will be assessed as a whole and no separate marks will be awarded to the design brief.

Examples of problems set might be a poster, a greeting card, signage, stationery, a book, a journal, packaging, a toy, fashion and accessory, etc. This examination paper will assess candidates' understanding of design and their ability to solve given design problem(s) in any innovative way.
