

Super:

Quality Assurance of Onscreen Marking

With the use of Onscreen Marking (OSM),
marking reliability and quality are further enhanced
as the progress and outputs of marking can be monitored in real time

Super:

Training Scripts

Qualifying Scripts

Control Scripts

Reference and Sample Scripts

The system provides training, qualifying, control, reference and sample scripts for markers
Throughout the marking process,
Subject Manager, Chief Examiners and Assistant Examiners
can check marked scripts
and review marking statistics
that facilitate the monitoring of marking consistency and progress

Super:

Subject Manager

Chief Examiners

Assistant Examiners

Statistical analysis is readily available from the OSM system
Timely and effective feedback can be provided
by Chief Examiners and Assistant Examiners to markers if necessary

Super:

Chief Examiners/Assistant Examiners

Markers

The system also allows easy retrieval of scripts
for appeal processing and research
Marking irregularities can also be identified
and remedied as soon as possible
