Your performance

- (1). What you have done best, (2) not very well/badly, and
(3) what you can do to improve for next interaction with peers?

My tone and attitude was my strength during the discussion as my ~~opinion~~ opinion could be taken easily by my ~~peerer~~ peers even if they were counter arguments. I am quite good ^{at} ~~on~~ rephrasing too.

However, my use of vocab was not at all appropriate all the time, like the word ~~tidgid~~ "rigid" should be replaced by "strong". Also, in initiating a topic, I should have done better.

To improve my skills for next interaction with peers, I should try to initiate a topic through

deepening other people's points, ~~Also~~ since
initiation must not imply starting
a brand new point. ~~On the other h~~
Beside, I will try to use more
vocab the vary my sentence
pattern.
