

Reflective Journal

Name: _____ Class: _____ No _____

Write **at least** 100 words in total on the 3 areas. (Use extra sheets if necessary)

Your performance

- (1). What you have done best, (2) not very well/badly, and
(3) what you can do to improve for next interaction with peers?

I have done best in throwing out ideas and persuading my peers to use my points. I gave examples of how a ~~successful~~ successful commercial should be. And all my peers have agreed with my opinions and examples. I cannot say I ~~have~~ had a good fluency, but the words came out quite smooth from my mouth.

However, even though as many points as I can develop, it seems that I didn't interact much with my peers, I think I talked too much and I didn't give

chances for my groupmates to throw out ideas and tell us their own idea of a good commercial. I need to learn how to let my peers to talk and therefore this can be a real ^{group} interaction.

Also, I have found out that I haven't generalized my points well. I have ideas, however, it may be difficult for my peers to understand all the things I said when I do not generalize the things I said
