Your performance

- (1). What you have done best, (2) not very well/badly, and
(3) what you can do to improve for next interaction with peers?

I think I have try my very best in the discussion, Even though I am not very familiar with this topic, but I do listen to the peers carefully and try to respond appropriately. Also, My voice is clear enough. But I think I don't have a wide range of vocabulary, therefore I cannot express my mind freely. And sometimes I don't know what the others talking about. because of my poor english. Maybe I can read more books and newspapers to learn more vocabulary and talk to others in English

in order to improve my language. Moreover,
I will spend more time to improve my
grammar by doing more grammar exercise.
