

Reflective Journal

Name: _____ Class: _____ No _____

Write at least 100 words in total on the 3 areas. (Use extra sheets if necessary)

Your performance

- (1). What you have done best, (2) not very well/badly, and
(3) what you can do to improve for next interaction with peers?

After having this meaningful oral practise, I have understood more about myself, not only what I am good at, but also what I can improve. Throughout the oral practise the best I have done was to comment on other's ideas and thus led to my own opinion. For example, when we ~~are~~ were talking about credibility, I can group up their ideas, plus my own opinion, and conclude them at last.

However, I have done badly on pronunciation and the use of vocabulary. As I ~~am~~ was a bit

nervous, so my speed of speech was a bit fast and my words were not clear at all. Moreover, I always repeated the same vocabulary in one sentence. This would make my statement not fluent at all.

To improve my problems, first I should try to slow ~~the~~ down my speed so I will have more time to think and pronounce more clearly.

Moreover, I can read more books or newspapers so as to enrich my base of vocabulary. I am sure I can have a better performance next time.
