Plagiarism
ABRSM defines plagiarism as an attempt to pass off as one's own the work of others. Thus copying from a printed or unprinted source without acknowledging it, or constructing a précis of someone else's writing without citing indebtedness to that writer, constitutes plagiarism.

In preparing the Written Submission candidates are encouraged and expected to read widely to demonstrate the breadth of their reading and, where appropriate, to quote the work of others. However, such quotations and references must be properly and fully attributed in accordance with the advice provided by ABRSM. Candidates who ignore this advice run the risk of being accused of plagiarism.

The Chief Examiner will refer any suspected cases of plagiarism to the Diploma Board. The Diploma Board may disqualify a candidate if the charge of plagiarism is upheld. Candidates will have a right of appeal and representation if such charges are made.
For DipABRSM and LRSM candidates only. Please keep this form for future use.

Keep this declaration and give it to the examiners at the start of your exam.
